

The producers of *Eye on America* were interested in doing a segment on the quality of life in mixed-use communities. We are proud to announce that The Village of River Ranch was chosen to be featured out of all the mixed-use developments across the nation.

In May of 2008, a film crew arrived in our community to capture the lifestyle of our traditional neighborhood development. The segment takes viewers through a journey of our homes, townhomes, businesses and diverse lifestyle that our community has to offer. The program also highlights the walkability of the neighborhood and the close proximity of the unique shops, restaurants, fitness center, and outdoor events to our residential areas. The architectural influences of our southern culture and heritage are featured through out the episode.

We invite you to view this show on the link provided on our home page.
